

“Where natural food is raw food”

Distributed by 4 PAWS Training & Pet Services

I am pleased to introduce you to the food I feed my dogs- Mountain Dog Food- MDF !
I chose MDF as I wanted a balanced, pre-prepared raw food from an established Canadian company. MDF is an Edmonton based family owned and operated company that has been producing raw pet food since 1997.

The owners are dedicated dog lovers and breeders of Bernese Mountain dogs. Their commitment to sourcing and producing only the highest quality food and the care they have taken to researching a well balanced diet is second to none!

Mountain Dog Food contains just raw natural ingredients!

MDF food is produced and frozen fresh daily! Meat is from inspected sources- comprised mainly of backs, meaty frames, left from the deboning process- then ground (bone-in) or left whole for those that prefer to feed whole raw meaty bones e.g. chicken backs.

For the meat /vegetable/fruit mixes; the meat is mixed with a vegetable & fruit mixture containing 70% meat and 30% veggie/fruit and then frozen in forms.
Includes carrots, celery, apples, yams and dehydrated alfalfa.

SO EASY TO FEED

Just thaw and serve!
